

TEST REPORT

Reference: Name of Product  
- pvc plastisol compound

Description of product:  
Dispersion of PVC resin in plasticizer mixed color, end losses from production

General composition:  
Plasticizer: Phthalate free Stabilizers: Phenol free  
Typical formulation: PVC resin 70%  
Plasticizers 27%  
Calcium zinc stabilizer 2%  
UV stabilizer 0,5%  
Viscosity depressant: 0,5%

Physical Properties:  
Appearance: Liquid paste  
Density: 1,25 (+/-) g/cm<sup>3</sup>  
Viscosity: 20000 CP
